

HERE ARE 133 SURPRISE WAYS TO GET MONEY FROM WASHINGTON D.C.

# The Amazing Lost Money — Secret Of The U.S. Government

## Does Uncle Sam Owe You Money You Don't Even Know About?

**DATELINE WASHINGTON** — There is a very good chance you have some money coming from the U.S. Government. There is an even better chance you don't know why the government owes you this money or exactly how much you will get.

The amount may surprise you. It could easily be a lot more than you would ever imagine. There is an honest chance you may have enough coming to retire on for the rest of your life.

Actually, the U.S. Government gives away so much money every year it can't even keep track of it all. Much of this money gets lost in the shuffle. For example, last year alone, 135 million dollars went unclaimed because the people who had that money coming simply didn't know how to get it. And this is what happened in just one U.S. Payment Program. Just imagine how much money goes unclaimed in *all* the different programs.

The amount is astronomical!

Some of this money probably belongs to you. It doesn't matter if you are young or old, male or female, employed or unemployed, black or white, rich or poor, married or single or whatever. To make a long story short, the chances are very good you have tax-free cash coming from the government that is just sitting there waiting for you.

But don't worry. Before you finish reading this page you'll know exactly how to find out for sure. In the meantime, please keep an open mind. At least don't disqualify yourself before you know the facts.

The first thing you need to know is that there are at least 133 perfectly legal ways to get a check out of Uncle Sam. Some of these U.S. Payment Programs are common knowledge but many of them are almost unknown to the average American. Not one person in 1000 knows about all of them. Here are some examples:

- Did you or any member of your family earn less than \$8,000.00 last year? If so, you may have a surprise \$1,000.00 check just waiting for you.
- Are you retired? If you know how, you may be able to get \$587.00 extra every month over and above your Social Security check. (Nearly 2 million people are doing this right now but most other people don't know about it.)
- Are you on Social Security? With the right information, you may be able to jack up your payments to \$848.80

how, you may be able to get a \$22,000 government loan to buy a new house.

- Do you want to stay put? There's a good chance you can get a \$3,500 check to fix up the place you have now.
- Would you like to get a \$25,000 start-your-own-business loan with 15 years to pay it back? It is quite possible if you know how.
- Are you a renter? You can get 25% to 75% of your rent paid by Uncle Sam if you qualify and if you know how to apply.
- Do you want to write a play or paint a picture or make a film? Maybe you can get a check for \$11,000 to help you out.
- Do you want to go back to school? If so, there is a good chance the government will send you \$352 every month to help you do just that.

It goes on and on. The above examples are just for openers. There are *many, many* other ways (all legal) to get a check out of the government. Some of these checks are for as little as \$35.00 per month. But some of them are for as much as \$15,000.00 or \$50,000.00. The average, however, is about \$220.00 per family per month.

This is not welfare or charity. The government *owes* you this money. This is what you rightfully have coming to you for being a good citizen and paying your taxes. If you do not get your share of this money, you are only cheating yourself.

It's rather easy to get this money but you must know what you are doing. You need to know *exactly* what to do and how to do it.

Most people are in the dark about all this. That's why so much of the money goes unclaimed. In fact, most people don't have any idea how to get *everything* they have coming from even the very well known payment programs.

Take Social Security for instance: did you know the odds are 2 to 1 in your favor you have a check coming from Social Security *right now* — even though you may be years and years away from age 65?

Here's why. Statistics show that two out of three people *overpay* their Social Security taxes. This means that all these people can get a refund *immediately* if they only know how to apply.

There's more. Do you know how students between the ages of 18 and 22 can get Social Security cash benefits? Do

erans? Do you know how to increase the amount of your payment if you are already on Social Security? *As you've already read, with the right information you may be able to jack up your payments to \$848.80 every month just by filling out a simple form!*

It goes on and on. It would be easy to use up this entire page just on Social Security. But let's move on. There are many other payment programs you should know about.

Are you a veteran? Did you know you might be able to get as much as \$264.00 every single month for "bad luck" that happened to you after you left the service? Don't laugh. One and a half million men are *already* cashing in on this little-known bonus.

You know, information about tax-free government cash is especially important if you are retired or planning to retire. As you know, prices keep going up and up. There seems to be no end in sight.

This is especially bad if you are on a fixed income. However, if you learn how to get all this bonus cash from the government it can help a lot. In some cases where medical expenses are concerned, it could make the difference between life and death. At the very least, some of this extra government cash could make your retirement a lot more pleasant.

*And please don't forget — if you have the right information and you are already retired, you may be able to get \$587.00 extra every month over and above your Social Security check just like 2 million other people are doing right now!*

All this is just the tip of the iceberg. The U.S. Government handles so much money it probably misplaces or loses more cash every year than most other countries are worth altogether. This is easy to understand when you realize just how much is involved. Here are a few more facts for your consideration:

- In just one U.S. Payment Program 31 million Americans get a check every month.
- In another, 19 million more get monthly money.
- In yet another, 11 million get money in the mail just like clockwork.
- And, of course, there are those 5 million Americans who get tax-free cash every time they tear off another page from their calendar.

There are many more examples just like these. Please remember — there are *at least* 133 legal ways to get a check from the government and you deserve to know about every one of them.

As you know, inflation is now a serious problem. There is a real danger of higher and higher unemployment. Some people believe we are headed for a depression. Who knows? But one thing is sure: the U.S. Government is never going to stop spending money and part of this money belongs to you. Please don't cheat yourself. It is really quite simple to get your fair share. You'll learn how in a moment. But above all, don't make the mistake of guessing you do not qualify for some of this money. No matter who or what you are (as long as you are a U.S. citizen) you can probably get a surprise amount of government cash immediately.

Unfortunately, the average citizen has been kept in the dark about all this. Up till now there was simply no practical way he could find out about all these little-known cash benefits.
