

Now, at last, you can do it too!

How To Pay Zero Taxes... IF... You Are A Long-Haul Trucker!

Dear Friend,

There is now a "secret weapon" which makes it possible for long-haul truckers to pay zero taxes.

And, before you even ask, I want to tell you it is 100% legal!

How many times have you gone to bed wondering just how much longer you can survive sky-high fuel prices? Even if you are fortunate enough to be "getting by," wouldn't it be nice to have some financial "breathing room"?

Well, guess what? I have some *serious* financial relief for you... if... you are willing to try a little "experiment." Look, I don't have any idea how you handle your taxes. Maybe you collect all your receipts, keep a careful record of all your income, have printouts made of all your bank records and credit card transactions, etc. Then, maybe once a year you take all this "stuff," lock yourself in a room and spend several miserable days preparing your tax return.

Or, maybe you give all this "stuff" to a CPA or some other kind of tax guy and he prepares your tax return.

Either way you do it, I don't want you to change a thing. But, after your tax return is finished... and... before you mail it to the IRS, I want you to spend 97-minutes (just over 1-1/2 hours) reading some confidential material and listening to a couple of audio tapes.

Then, I want you to prepare your tax return again... *but this time*... I want you to use what you have learned in the written material and the audio tapes.

Let's say your first tax return showed you owe the IRS a total of \$15,000. Well, I guarantee your second (*perfectly legal*) tax return will show you owe less than \$5,000... and probably...

**You Will Owe The IRS
NOTHING!**

How can this be?

Well, there's a guy in Phoenix, Arizona named Dennis Bridges. Dennis is a CPA who specializes in solving problems for truck drivers. Brendan Cooney, the Associate Editor of *Truckers News* calls him "The Trucker's

- Page 2 -

IRS Problem Solver." Dennis is an expert at helping truckers find little-known and often-missed deductions... and also... in reaching *incredible* settlements for truckers who owe past-due taxes.

That's the good news.

The bad news is, Dennis is way too expensive for the average trucker. In fact, he charges as much as \$3,000 per hour for his advice... and therefore... only the biggest of the "big boys" can afford to hire him.

I met Dennis for a long lunch when I was in Phoenix about two months ago and, I presented him with an unusual idea. I asked him, *"Dennis, why don't you create a tax relief kit for the average long-haul trucker who can't afford to come to Phoenix... and... simply can't afford to pay what you charge (deservedly) for your services?"*

Dennis and I talked and talked about that idea for hours. Then, I stayed an extra two days in Phoenix and we talked about it some more. To make a long story short, Dennis agreed to do it... and now...

The "Tax Relief Kit" For Long-Haul Truckers Is Finished!

This kit is valuable almost beyond belief. Here are just a few of the amazing secrets you will learn when you have it:

- ✓ A Deduction You Didn't Know Was A Deduction: This one is almost never used by truck drivers... and... it gives you an immediate \$3,000 deduction!
- ✓ **3 More Overlooked Deductions: These particular deductions are overlooked by almost 100% of all truckers... and... 97% of all accountants!**
- ✓ One Particularly Unique Tax Savings Tip Which Is Always Overlooked: This one will put more money into your pocket... than... if you drove an extra 50,000 miles every year!
- ✓ A little-known strategy which will *instantly* relieve up to... **85%... of all your tax worries!**
- ✓ A dirty-little secret your current accountant (even if he is your best friend)... does not... want you to know about!
- ✓ A **big tax savings secret which has been giving large freight corporations an unfair advantage... and... how you can use it to put money back into your wallet!**
- ✓ 15 Heavy Duty Tax-Cutting Strategies Nobody Ever Told You About: These are all explained in plain English and are so simple to use, a 15-year old kid could do it! These

strategies will enable you to cut your yearly tax bill just like you could use a machete to cut down corn stalks.

- ✓ The *one* "secret move" you should have made years ago to have been saving **big** today... and... how you can *still* get back all the time and money you lost (by not making that "secret move") in the last 10-years!
- ✓ 19 "hidden" tax deductions you need to know about... *before*... you even think about filing next year's tax return!
- ✓ How to reduce your risk of having a tax audit (or any other kind of IRS hassle)... to less than... 1/2 of 1%!

But wait. That's only half the story. The other half will be even more important to some truckers. You see,

this part of the *Truckers' Tax Relief Kit* reveals...

Here are a few of the inside secrets you will learn about in the second half of this *Truckers' Tax Relief Kit*:

- ◆ **An *inside* look at the IRS collection process! Armed with this knowledge, you will always settle past-due monies... for pennies-on-the-dollar.**
- ◆ How to tell if the IRS is setting you up! Because they use a tactic known as an "ambush attack," you will not only learn how to spot it and prepare for it... but also... how to avoid it.
- ◆ **Why you should *not* (EVER!) be directly communicating with the IRS! You need to know how to use "third" party representation... and... why it is the *only* way to "talk" with the IRS. Knowing this is going to save you money and your assets... and... prevent you from the *threat* of jail.**
- ◆ How to get your personal copy of *The Trucker's Tax Letter*! Dennis writes nearly a half dozen newsletters every year (depending on the changing laws and current conditions being faced by truckers). In these newsletters, you'll read about his most recent strategies and techniques... and... explanations on effects the laws (both new and old) have on your business.
- ◆ **Peace of mind! You can now have confidence in your ability to *successfully* defend your quality of life from an attack by the IRS.**

Now, let's discuss something very important: How can you determine if I am telling you the truth? How can
